PRINCE NMEZI

NODE/REACT ENGINEER

PERSONAL PROFILE

I am a Node/React engineer with deep passion for software development, algorithms and problem-solving. Through years of practicing and personal project have leverage my abilities to successfully achieve organizational goal. Strong focus on comprehensive product knowledge in order to offer customer-appropriate advice and maximize sales.

WORK EXPERIENCE

Software Engineer

Decagon, Lagos   Sep 2022- Present

- Co-ordinated a team of software developers working on a muisc application
- Worked across diverse agile development teams to build and maintain technology products
- Occasionally build APIs that met client's requirement
- I was part of the team responsible for building several endpoints for a food application
- Documenting Node.js processes, including database schemas, as well as preparing reports.

Graduate Assistant (Electronic Fund Transfer Officer)   Dec 2019- 2022
FirstBank, Kaduna

- I engage in the effective, efficient, and prompt posting of customers' fund transfer instructions within approved service turnaround time
- I was part of the team that is responsible for activities such as Asset Management, ATM Reconciliation, Cheques Truncation, FX transfer, Trade Services, Tax Management, Draft and Reports.
- Collaborated with Head Finance Officer to develop long-range plans budgets forecasts and tracking metrics to assist in evaluating financial key indicators

Computer Maintenance Technician

Sign & Display Computer, Kaduna   Mar 2018--2019

- Provide technical support to end users by answering questions about software applications or computer settings
- Diagnosed and troubleshooted hardware and software issues, such as installing new drivers or replacing broken parts that result to 20% increase to the company revenue
